

Step-in Harness Information

Step-in Harnesses offer security, comfort, and style. Step-in harnesses are easy to put on the dog, as the name implies. Just put the dog's front paws in, bring the straps up over his back, clasp the buckle and go! For added security, these have two rings for the lead attachment, so even if the clasp should open, the harness is held together with the lead. This is a particularly good choice for dogs who won't tolerate anything going over their heads. Also featuring metal rings for extra resilience. Adjustable. With stitched on motif. Made of two-ply nylon. Available in 3 sizes

These harnesses come in the popular step-in style that is a breeze to get on and off. The dog steps in and a quick-release buckle snaps together easily at the top of the shoulders. Three way adjustable for a perfect fit every time! Available in all our charming ribbon collar designs in sizes XS through XL. Sizes XS, S and M are 5/8" wide and L and XL are 1" wide and have matching leads.
